

ANNOUNCEMENT - CALL

ADEDY

24 HOUR STRIKE

Thursday, 7th April 2016

Dear colleagues,

In the magnificent strike of February 4th, the workers of the public sector along with employees of the private sector, the self-employed, the farmers, the scientists, the middle class, the pensioners and the unemployed, we expressed our opposition to the Government's proposals for the social security and we demonstrated that with unity and social uprising we can win. We can force the Government to withdraw its anti-insurance monstrosity.

The measures proposed do not consist “the reformation that will save the Social Security” but part of the commitments of the third memorandum adopted and implemented by the government coalition of SYRIZA-ANEL, that is enforcing further pension cuts that will rise to 1.8 billion euros for 2016 and for the coming years, in order to repay the burdensome, illegal and unjust debt.

The violent, neoliberal “reform” of the government coalition of SYRIZA-ANEL continues the implementation of the austerity policies enforced initially by the Governments of Nea Dimokratia and PASOK, and adds to the previous anti-insurance transaction laws (by Sioufas Reppas, Petralia Loverdos-Koutroumanis etc.) that increase the retirement age to 67 years of age (or 62 with 40 years of work), increase the healthcare contributions to main pensions while they decrease services and retirement benefits for all incurred citizens and pensioners. At the same time, they have already decided a new decrease (by 32.5%) of the dividends of the Civil Employees Share Fund.

Moreover, with the new tax bill the Government promotes new significant increases in direct and indirect taxes, in order to ensure the collection of additional tax revenue of 2 billion euro in 2016 and 2017. The new insurance measures along with the over taxation of workers, liberal professionals and scientists, self-employed, farmers etc. pauperize the workforce and the working classes and is forcing our youth in exile.

During the “negotiations”, the quartet of lenders raised the dilemma “either the sale of all red loans is released to the funds or you will find yourself before the risk of further deposit haircut” with the Government disorderly retreating.

A. D. E. D. Y. invites all the workers in the public sector to massively participate – once again – in the strike by escalating the fight to reverse these policies.

We relentlessly follow down the road of social uprising initiated on the 4th of February!

We can stop them with the immediate escalation of multiform mobilizations!

We call everyone to the Strike of the 7th April 2016

and to the concentration in Klafthmonos Square at 11:00

The DISSOLUTION OF SOCIAL SECURITY WILL NOT PASS!

WE CAN OVERTURN THE UNPOPULAR POLICIES OF THE GOVERNMENT,
THE E.U. AND THE IMF

RESISTANCE - RUPTURE - SUBVERSION
