

To mark World Health Day,

[EUROPEAN NETWORK AGAINST
PRIVATISATION AND
COMMERCIALISATION OF HEALTH
AND SOCIAL PROTECTION]

invite you to take part in the
**FIRST EUROPEAN DAY OF ACTION AGAINST THE
COMMERCIALISATION OF HEALTH CARE**
and social welfare

on Thursday 7 April 2016

Our health is not for sale: Stop commercialisation, marketisation and
privatisation!

Free trade agreements (CETA, TTIP and TiSA) are endangering our health!

**Together, as service users, professionals and citizens, let's do something
about it.**

People in many European countries will campaign for

- high-quality care for all
- an adequate number of qualified staff, with good working conditions
- employment, housing, education, etc.: factors that promote good health
- health and social services that are affordable and accessible to all
- Health and social services provided in the public interest and of a not-for-profit-nature
- sustainable and socially responsible financing of social security systems

At/in....

We are organising

On 7 April at

Meeting

In the European Quarter of Brussels:

→ 11am-1pm: European Conference Against the Commercialisation of Health
Care in Europe

→ 2pm: European Mediatisted Action

**OUR HEALTH IS NOT FOR
SALE**
