BELGIUM

Subjec: HWC 2014-2015 Official European Campaign Partnership

Dear Mr. GOUDRIAAN,

I am very pleased to inform you that the application of Fédération Syndicale Européenne des Services Publics to become an official partner of the 2014-15 Campaign *Healthy Workplaces Manage Stress* has been accepted.

As you are now an official European campaign partner, in the coming year your organisation and the European Agency for Safety and Health at Work (EU-OSHA) will be working closely together to raise awareness on the issues of stress and psychosocial risks in the workplaces and the tools available to manage it.

The campaign was officially launched on 7th April 2014 during a press conference attended by László Andor, EU Commissioner for Employment, Social Affairs and Inclusion, Vasilis Kegkeroglou, Greek Deputy Minister for Labour, Social Security and Welfare, representing the Greek EU Council Presidency, and myself.

The campaign has received a very warm welcome by the national and European press, and the campaign hashtag [#EUmanagestress](#) is setting an unprecedented record of engagement across the broad EU-OSHA community, and more is to come. In the next fourteen months *Healthy Workplaces Manage Stress* will be the focus of hundreds of events organised at the national and European level, (especially during the annual European Week for Safety and Health at Work in October 2014 and 2015) and millions of information sheets, DVDs and other campaign material will be made available for free.

You will shortly receive our **Campaign Partner Welcome Pack**, which consists of a selection of campaign material (including the campaign guide and leaflet, Napo DVDs, posters, campaign pens and other promotional material); while your **partner profile** already features on the campaign website <http://www.healthy-workplaces.eu/> which is visited by thousands of people every day.

Should you have any further questions, please do not hesitate to contact EU-OSHA's campaigns manager Ms Heike Klempa (klempa@osha.europa.eu).

We thank you for your support and commitment to healthier and safer workplaces and look forward to working together on managing stress and psychosocial risks.

Yours sincerely,

Christa Sedlatschek

Director, European Agency for Safety and Health at Work
