

Dear Colleagues,
Dear brothers and sisters,

We, GPA-djp and all our members, declare our solidarity with your struggle against the harsh, unsocial and antidemocratic austerity policies, which were imposed on you by the European Institutions earlier this year. We are very concerned about the ongoing neoliberal agenda which is forced upon Greece and totally oppose further cuts in the social security and pension systems and the handling of privatisation especially of public energy and water companies.

We, as part of the International Trade Union Movement, have to stand together in this time of crisis and especially fight back the attacks on the right to strike, on the protection against dismissals and collective bargaining.

We want to express our solidarity with today's general strike and will continue to support your struggle.

An injury to one of us, is an injury to all.

In solidarity,

Wolfgang
Katzian President

Wolfgang Greif
International Secretary

Reinhard Bödenauer
Deputy Head of Collective
Bargaining

Vienna, 12th November 2015
