

12 November 2015

To the Greek trade unions and workers

Dear brothers and sisters,

The Federation of Trade Unions of Ukraine sends its solidarity greetings to the Greek trade unions and workers on the eve of the general strike on 12 November.

We declare our total support for your struggle against the government austerity policies aimed at increases in indirect taxation, further cuts in wages and pensions, privatisation of strategic companies of the public sector. Indeed, such policies will not foster economic growth in Greece. We wish success in the fight to all the workers, unemployed, pensioners and young people who will take part in the action on 12 November, and support your key demands.

In solidarity,

Grygorii Osovyi

FPU President
