

The European Federation of Public Service Unions wishes you a successful mobilisation.

FSP-UGT and FSC-CCOO have called for a Day of action in the regional administrations on June 14. This call follows the months of mobilisations against the privatisation of health and education services in several autonomous communities (Madrid, Valencia, Catalonia, Murcia...) and the continuous attacks against the public sector by most of the regional governments in Spain. The European Federation of Public Service Unions supports your day of action.

Your fight is the same as other public sector workers are facing across Europe. They and you defend Quality Public Services, decent jobs and wages.

Following the financial and economic crisis and the austerity measures imposed by governments, public sector workers are asked to pay for a crisis that they did not cause. This has to stop and your mobilisation is one stop further to halt the plans to dismantle the public sector.

We fully support your call for the day of action

- to defend the welfare state
- to stop the cuts and the destruction of public sector jobs
- to fight the attack on trade union rights
- to halt the reform of the labour code.

We wish you a successful mobilisation
