

# **Union continues working time campaign with action against hospital**

 [Switzerland](#)

The vpod public services union has taken further action in its campaign to get the time health workers need to change clothes counted as working time. The union has submitted a whole series of complaints to the regional labour inspectorate in Zürich about the USZ hospital. These cover a range of issues around staffing and working time but the changing time is key. The issue has also been taken up by the hospital's staffing committee.
