

Health unions take action over collective agreement

 [Belgium](#)

Health and social care unions from all three trade union confederations took strike action on 24 October to put pressure on the employers to resolve issues in the non-profit sector negotiations. Trade unions are particularly concerned to resolve problems around stability and predictability of working hours and contracts, right to annual leave, action to tackle burn-out and training. The unions say that most private hospitals were affected with action also taking place in the social care sector.
