

Keeping up-to-date with public service pay negotiations

Europe

This newsletter aims to report on the latest news about public service collective bargaining. Articles are stored on the EPSU website and can be searched by country and theme [here](#). However, it is going to be particularly important to follow the latest developments as EPSU affiliates negotiate on pay in the light of the COVID-19 pandemic. EPSU has therefore put together a country-by-country overview that gives the state of play of bargaining in each country. It will be updated at least once a month and information on more countries and sectors will be added. The link to the article is below but also at the end of the introductory paragraph in the collective bargaining section of the EPSU website - [here](#).
